

# ME IN A NUTSHELL INTERVIEW AND PORTRAIT

Name: \_\_\_\_\_ Name of subject: \_\_\_\_\_

You have been paired up with a partner. You are to ask your partner the following questions quickly and they should answer with the first thing that pops into their head. Then, they will answer your questions as well. After the interview is done, take a moment to reflect on the things you learned and write one sentence that describes the person, a focus statement about them, something that encapsulates them. Then you will take that focus statement, the person, your camera and take a portrait of them that matches that focus statement.
