

PICTURE IT THIS WAY

Name: _____

Below you will find a list of photos that you will capture. For each photo assignment you should take more than one shot, three per assignment would be ideal. As you shoot the assignments below, consider different lighting, a different angle, a repositioning your subject. Remember to use the rule of thirds. And remember, the best camera you can use is the camera you have. NO filters or editing, please!

Assignment 1: Unexpected action

The way to get this picture is to decide who your subject is going to be and follow that subject with your camera's eye.

Assignment 2: Posed action

The completely overdone "let's jump in the air" picture is an example... but don't do that.

Assignment 3: The house that built me

Tell us the story of where you live... in one picture.

Assignment 4: The person I love most

Should this be posed or an action shot? That would be your call...

Assignment 5: Everyday object in a different light

You use it everyday, but show us something special about it or tell us something about it using your camera's eye...

Assignment 6: Beauty

Everyone has their own definition.

Assignment 7: Tragedy

Again, your own definition.
